2014	<b>G.C.E O/L</b> Kegalle Vidyalaya, Kegalle

## EXPERIENCE

Mobile application development  
Web development  
Creating BI Dashboards  
Desktop Application development  
IOT applications

## PROJECTS

### Platform for consult a psychiatrist (College Project)

This was the second year final project. Under the digital wellbeing theme my research was carried out to build a platform where anyone can sign up and seek help for their mental help. Here I used WebRTC API to build the video stream capability.  
(<https://github.com/rashalismath2/social>)

### Point of sale system (College Project)

Software application development class final project. Developing an application desktop application for manage sales and resources for Williams coffee company. This project influenced me to carry out a project to its completion with a team as I lead the team.  
(<https://github.com/rashalismath2/POS>)

### Resource allocation system (College Project)

Developing a resource allocation system for BCAS campus for web development class assignment. Here I used Laravel and Vue.js frameworks with MySQL database.  
(<https://github.com/rashalismath2/wdd>)

### Android library app (College Project)

Developing a library application for API class. Here I used node.js to build my backend with MySQL database. I also had to use third party API's to build a fully functional app.
